

European Union's REACH Regulation Declaration¹

November 18, 2016

Dear Logic PD Customers ::

The European REACH Regulation 1907/2006 on Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) entered into force on June 1, 2007, and affects all companies producing, importing, using, or placing products on the European market. The aim of the REACH regulation is to ensure a high level of protection of human health and the environment from chemical substances. Logic PD supports the overall REACH objective.

Based on information provided by our suppliers, Logic PD certifies that our System on Modules [SOMs] are REACH compliant, with the exception of the SOM products identified later in this declaration. REACH compliant means that:

- + It is not intended that our products release substances during normal and reasonably foreseeable conditions of use.
- + Regarding the Substances of Very High Concern (SVHC) updated candidate list released by the European Chemicals Agency on June 20, 2016, our products do not contain more than 0.1% weight by weight (w/w) of any substance on the SVHC candidate list.
- + It should be noted that SVHC items are not banned from inclusion, but are Reportable per current REACH regulations.

On the following SOM products, there are some ceramic packaged crystals using over 0.1% w/w of the reportable substances Diboron Trioxide, and Lead Oxide in sealing glass material:

- + PXA270 Card Engine
- + MCF5475 Fire Engine
- + MCF548x Fire Engine

The following Logic PD products have not been verified as REACH compliant:

- + Development Kits
- + Display Kits

This declaration will be updated as changes to the standard occur or new relevant substances are added to the candidate list.

Detailed information will be provided upon request. We encourage you to visit www.logicpd.com/about-us/quality-regulatory for the most up-to-date information about Logic PD's environmental policy.

Sincerely,

Tim Becker ::
Director of Quality Management
